

# Axial Tilt

Catherine Faber

$\text{♩} = 120$

Earth spins on its ax - is; that makes day and night, But its

ax - is of ro - ta - tion is - n't ful - ly up - right When

looked at in re - la - tion to our or - bi - tal plane, So each

he - mi - sphere in turn's re - cei - ving more so - lar gain.

Ax - i - al tilt, is the rea - son for the sea - son.

Ax - i - al tilt, is the fac - tor in play.

Sum - mer will run, while we're turned to the sun And

win - ter when our hem - is - sphere is poin - ted a - way.
